Topic	Discussion	Action Required
Fall education Day	The peds education day was held on Oct 18, 2023. We met the goal of hosting 50 nurses. The feedback during the session was very positive and the learners seemed very engaged.	At the next committee meeting we will review the formal feedback and then make some plan for the new year. There were some nurses that were willing to join the committee so we will add them on the invite for the next meeting.
